

**2nd Annual Meeting  
NGFN-Plus and NGFN-Transfer in the  
Program of Medical Genome Research**

**Workshop  
Epigenetic Regulation**  
November 26, 2009

**Scientific Organization:**

**Peter Lichter**

**Chair: Peter Lichter, Heidelberg**

Talks 15 min plus 5 min discussion

- |         |                                                                                                                                  |     |
|---------|----------------------------------------------------------------------------------------------------------------------------------|-----|
| 4.30 pm | Epigenomics in Chronic Lymphocytic Leukemia<br><b><i>Christoph Plass, Heidelberg</i></b>                                         |     |
| 4.50 pm | Cis-acting factors determine DNA methylation states in health and disease<br><b><i>Michael Rehli, Regensburg</i></b>             |     |
| 5.10 pm | Epigenetic restriction during cellular differentiation<br><b><i>Dirk Schübeler, Basel</i></b>                                    |     |
| 5.30 pm | The clinical relevance of epigenetic alterations in leukemia<br><b><i>Carsten Müller-Tidow, Münster</i></b>                      |     |
| 5.50 pm | Characterization of age- and environment-dependent DNA methylation changes in human skin<br><b><i>Frank Lyko, Heidelberg</i></b> |     |
| 6.10 pm | <b>Joint discussion</b>                                                                                                          | All |
| 6.30 pm | End of Workshop                                                                                                                  |     |
| 7.00 pm | <b>Supper</b>                                                                                                                    |     |
